## TECH STACK

## **Backend Tech**

Java 8

Spring Boot

Spring Framework

Spring Cloud

Oracle SQL

Cosmos DB

Kafka

Gradle/Maven

Unix Shell Script

Python Scripting

#### **Frontend Tech**

Javascript

Typescript

Angular 6+

JQuery

Ajax

CSS

### **Version Control**

Github

Gitlab

## Alert and Monitoring

Splunk

NewRelic

Grafana

## Cloud

Azure

## Hobbies

Computer Games Watching Movies

# NITIN

#### Application Developer

# PROFILE

- Strong technical aptitude Java, open source technologies and hands on experience in Spring-boot and microservices, RESTFUL, APIs.
- Experience in Microservices Architecture and design patterns.
- Experience load testing and performance tuning.
- Experience automated testing and proficient with a testing framework (functional Test-Cucumber, Contract Test-Pacts, JUnit).
- Experienced with CI/CD such as: Docker, Jenkins, Circle CI, Github Actions.
- Familiar with agile development lifecycle and worked on the design/development of at least 3-4 projects.

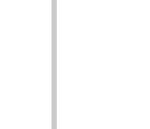

## EXPERIENCE

ThoughtWorks Technologies Private Ltd.

1 year

Hyderabad, India

#### **Application Developer** Jul 2021 - Present

- Worked on microservice architectured Ecommerce Project.
- Created new microservice from scratch which allows customers to delete their information stored by multiple services based on user request(CCPA).
- Writing Contract tests with pacts, functional tests with cucumber and Junit test to.
- Also worked on customer account serivce which manages the customer Account data along with signin, signup and creating loyalty profile.
- Participated in load testing of microservice to check if the service will be able to bear the expected amount of load during peek hours.
- Created load test script using Jmeter, testing the new rest-endpoint with proper load and monitoring its behaviour through newrelic and splunk.
- On-call production support.

# wipro: Wipro Technologies Ltd.

4 yrs 9 months

Bengaluru, India

## Senior Software Engineer

Dec 2020 - Jul 2021

- Improved performance of lookup operation on master table by almost 30%.
- Worked on a automation script which loads the control data from .tar file present in Oracle acfs directory and processing that data further through batch application.

## Software Engineer

Oct 2016 - Nov 2020

- Fixed CSRF vulnerability issue in web application.
- Data Model Changes to Populate new fields from upstream systems.
- Worked with SAP team and Implemented the code for supporting SAP HANA conn. along with Oracle.
- Supported code testing in UAT env. for finding out the issues and adhoc providing code fixes.
- Added multiple functionality in web app to make it easily accessible.

## EDUCATION

#### Birla Institute of Technology & Science, Pilani

2017 - 2020

Master of Technology (M.Tech), Computer Science (Work Integrated Learning Program)

# GLA University, Mathura

2013 - 2016

Bachelor Of Computer Applications - BCA

## Certifications

**Azure Fundamentals** 

3rd Feb 2021
